

IEC CONTRACT

PRIME CONTRACTOR — \$808M CEILING

SPRBL120-D-0010

IEC (Interconnection Equipment Contract)

ACE POC: Susan Di Vila - sdivila@aceelectronics.com

GOV POC: Kristal Gahre - kristal.gahre@dla.mil,
DLA_IEC@dla.mil

SCOPE:

The scope of the Interconnection Equipment Contract Includes any Product, and incidental service, used by the Department of Defense (DoD) or the Federal Government to connect weapon systems, computer systems and networks, global and tactical networks, radio networks, and etc.

KEY ADVANTAGES:

- **Rapid Acquisition Capability**— Awards to multiple vendors enables quick response to surge and war-fighters needs.
- **Advance Planning**— The Government will share the quarterly forecast for Interconnection Equipment with awarded companies. There is also the potential for deep dive analysis at an annual supply chain review.
- **Cooperation/Collaboration**— Opportunities for awardees to have integrated conversations at the DoD level on issues on and/or solutions to the Interconnection Equipment industry.
